SECRETARY'S ORDER

[Secretary's Order No. 2013-W-0023](#)- Cease and desist order for Denver Bivens and Bivens Hauling Co. for failure to possess a valid State of Delaware Non-Hazardous Liquid Waste Transporters permit.

UPCOMING AIR, WASTE & WATER-RELATED HEARINGS, MEETINGS & EVENTS

7 DE ADMIN. CODE 1147 – CARBON DIOXIDE BUDGET TRADING PROGRAM PUBLIC WORKSHOP will be held at 6pm on **July 24** at the Kent County Administrative Complex, Room 220, 555 S. Bay Road, Dover, DE, 19901. Participating states of the Regional Greenhouse Gas Initiative (RGGI) conducted a program review process that led to amendments to the Model Rule. The amendments included a change in the size and structure of the CO2 allowance cap as well as other program modifications. The purpose of the workshop is to educate the public on the amendments to Model Rule as they apply to Delaware's CO2 Budget Trading Program. For more information, please contact Babatunde Asere at 302-323-4542, or visit:

PUBLIC HEARING ON PROPOSED REVISIONS TO 7 DE ADMIN. CODE 1100 (identified in an April 1, 2013 DNREC report titled, "Executive Order 36 Report to the Office of the Governor"). DNREC - Division of Air Quality will hold a public hearing on the following proposed revisions on Thursday, **August 1**, beginning at 6pm in the DNREC Auditorium, 89 Kings Highway, Dover. The revised regulations will also be submitted to the Environmental Protection Agency (EPA) as a revision to Delaware's State Implementation Plan (SIP).

- **7 DE Admin. Code 1101, Definitions and Administrative Principles** - Revisions are proposed to correct outdated references. In 2008 Delaware's air regulations were established in 7 DE Admin. Code 1100. The regulatory language in 1101 inadvertently continues to refer to the prior "Regulations Governing the Control of Air Pollution."
- **7 DE Admin. Code 1103, Ambient Air Quality Standards** - Revisions are proposed to bring the regulatory standards up-to-date with current federal requirements. 1103 currently contains outdated test methods and emission standards.
- **7 DE Admin. Code 1104, Particulate Emissions from Fuel Burning Equipment** - Revisions are proposed to clarify that the exemptions 1.2 and 1.4 of this regulation are for the capacity of the unit, and not the operating rate.
- **7 DE Admin. Code 1114, Visible Emissions** - Revisions are proposed to delete the alternate opacity standard in Section 2.3. This alternate standard was established for a petroleum refinery unit prior to installation of modern pollution control equipment in 2006. The instillation of

the pre-scrubber on the catalytic cracking unit in 2006 makes this alternative opacity standard obsolete.

- **DE Admin. Code 1139, Nitrogen Oxides (NOx) Budget Trading Program** - Repeal of this regulation is proposed. This regulation established Delaware's participation in the NOx Budget Trading Program; a multi-state NOx emissions cap and trade program, established pursuant to Title 40, Part 96 of the Code of Federal Regulations (40 CFR Part 96) and 40 CFR Part 51.121. The underlying federal program was replaced by the federal Clean Air Interstate Rule (CAIR). Given this, 1139 no longer serves its intended purpose. In addition, the adoption of a SIP plan that demonstrates Delaware's compliance with the federal NOx SIP Call requirements is also being proposed.
- **DE Admin. Code 1143, Heavy Duty Diesel Engine Standards** - Repeal of this regulation is proposed. The provisions of this regulation apply to heavy-duty diesel engines produced for the 2005 and 2006 model years, and to new motor vehicles with a gross vehicle weight rating (GVWR) of greater than 14,000 pounds containing such engines that are sold, leased, offered for sale or lease, imported, delivered, rented acquired, or received in the State of Delaware. This regulation was developed and adopted as a backstop to an anticipated EPA regulation. Because EPA successfully adopted standards, this regulation is no longer needed.

The proposed revisions may be inspected at the Department's offices located at 655 S. Bay Road, Suite 5N, Dover, DE 19901. The proposed revisions will also be published in the July 1, 2013 issue of the Delaware Register of Regulations, and can be viewed after publication at <http://regulations.delaware.gov/register/july2013/>. For additional information or an appointment to inspect the proposed regulation or amendments, please contact Ron Amirikian in Dover at (302) 739-9402, or at ronald.amirikian@state.de.us. REGULATORY INFORMATIONAL WORKSHOP FOR AMENDMENTS TO THE DELAWARE REGULATIONS GOVERNING SOLID WASTE will be held on **August 5** from 1-3pm to present proposed amendments to Delaware's Regulations Governing Solid Waste (DRGSW). DNREC's Solid and Hazardous Waste Management Section will hold the workshop at the DNREC Richardson and Robbins Auditorium, 89 Kings Highway, Dover, DE 19901. The purpose of the workshop is to introduce new proposed scrap tire regulations for the State of Delaware for any scrap tire site that has 100 or more scrap tires. This workshop will cover maximum number of tires allowed, siting and design standards, mosquito control options, operational requirements, financial assurance, and closure procedures. To register for the informational workshop please contact Tara Grazier at (302) 739-9403. The proposed amendments can be found at this web site: <http://www.dnrec.delaware.gov/Info/Pages/Rules.aspx>. FEDERALLY ENFORCEABLE 7 DE ADMIN. CODE 1102 APPLICATIONS

DuPont Experimental Station, having a facility at Route 141 and Henry Clay, Wilmington, Delaware, has requested federally enforceable 7 DE Admin. Code 1102 construction permits (APC-1982/0081-C(A2)(NOx RACT) and APC-1982/0082-C(A2)(NOx RACT)) for the retrofit of Boilers 1 and 2 to combust natural gas. Natural gas will replace No. 6 fuel oil as the primary fuel and No. 2 fuel oil will be used only as a back-up fuel. The retrofit of the boilers will decrease the emissions of combustion pollutants by 50% (approximately) due to the fuel switch. A public hearing on the above application will NOT be held unless the Secretary of DNREC receives a request for a hearing by August 13, 2013. For more information, please visit:

SITE INVESTIGATION AND RESTORATION SECTION – The Division's Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>

FINAL PLAN OF REMEDIAL ACTION FOR THE PURINA TOWER A SITE (DE-1263) -

The Department has adopted a plan regarding the clean-up of the Purina Tower A Site located at 1409 Eastlawn Avenue and 3410 Bellevue Avenue in Wilmington. The approved cleanup plan includes maintenance of existing caps over impacted soils, restricting the use of the site to non-residential purposes, restricting groundwater use, restricting soil disturbance, developing a Contaminated Materials Management Plan to safely handle soil and groundwater during any redevelopment activities, and developing a Long Term Stewardship Plan to ensure that soil caps are monitored and maintained.

DNREC issued public notice of the Proposed Plan for the Purina Tower A Site on June 2, 2013. There were no comments or questions from the public regarding the Proposed Plan. The public may appeal the Final Plan by July 21. For additional information, please contact John Cargill, Project Manager, or Robert Newsome, Public Information Officer, at (302) 395-2600, or visit:

FINAL PLAN OF REMEDIAL ACTION FOR THE PURINA TOWER B OPERABLE UNIT 1 SITE (DE-1264)

- The Department has adopted a plan regarding the clean-up of the Purina Tower B Operable Unit 1 Site located in Wilmington. Operable Unit 2 is a separate tax parcel and contains the Purina Tower building. The approved cleanup plan includes maintenance of existing caps over impacted soils, removing asbestos containing materials from existing structures during demolition or renovation, restricting the use of the Site to non-residential purposes, restricting groundwater use, restricting soil disturbance, developing a Contaminated Materials Management Plan to safely handle soil and groundwater during any redevelopment activities, and developing a Long Term Stewardship Plan to ensure that soil caps are monitored and maintained.

DNREC issued public notice of the Proposed Plan for the Purina Tower B Operable Unit 1 Site on June 2, 2013. There were no comments or questions from the public regarding the Proposed Plan. The public may appeal the Final Plan until July 21. For additional information, please contact John Cargill or Robert Newsome at (302) 395-2600 or visit:
